

## Using Zoom

The following pages provide convenient images of the Zoom interface showing where relevant features are. These instructions are for both mobile and desktop devices.

For many SFI ACTioN events, we will be using Zoom and facilitating conversation through the “Raise Hand” feature. Please note that the “Chat” feature will also be available in ACTioN events. To access this feature, you can see the relevant toggle in the images below.

At any virtual ACTioN event, should you need assistance, please use the “Chat” feature to directly message technical support by selecting the user named “Admin.”

For further assistance before, during, or after an event, ACTioN can always be reached by emailing [action@santafe.edu](mailto:action@santafe.edu).
