Meeting 9:00 a.m. – 12:00 p.m. SFI

In the spirit of the adaptive, self-organizing systems to which the Santa Fe Institute dedicates much of its research, I am leaving this as a “temporal slu”sh fund” whose purposes we can decide during the previous two days of our meeting, as new needs and interests arise. In addition, we may want to use this time to discuss the major themes and interconnections of the conference as per the list of framing questions sent to participants in late January, or to catch up in case we ran overtime on the previous days or have unfinished business (e.g., if Carl Bergstrom is able to come at the last minute and give a talk).

Buffet Luncheon 12:00 - 2:00 p.m. SFI (boxed lunch for those who must depart early)
