

Chemical Biology > Neuroscience: RNA toolboxes

RNA-selective, live cell imaging probes

Li et al., J. Chem. Biol. 13:615-23 (2006)

Fluorescent, styryl dyeshighly specific for RNA
....exhibit low toxicity and high photostability
they stain RNA -rich foci within living cells.

Behavior/Neuroscience > Engineering: Robust algorithms

Trail geometry gives polarity to ant foraging networks

D. E. Jackson, M. Holcombe and F. L. W. Ratnieks

Nature 432, 907-909(16 December 2004)
